A day to celebrate fatherhood and male parenting, Father's Day is observed on the third Sunday in the month of June in most countries around the world. The occasion gives an opportunity to express love and affection to all fathers and fatherly figures. The day helps in strengthening the father-child relationship all the more. Just like a mother is regarded as the sole nurturer of a child, the father helps in the development and emotional well being of the child. A father plays the role of a guide, supporter, motivator and protector in any child's life. With this article, we bring you some known facts about Father's Day.
